Home team breaks first. Away team refs first. Then it is alternate breaks and refs until all games are complete.

In Cup matches only, in the event of a tie both captains pick a player to play a 'sudden death' single frame to decide the winning team.

The match is played over 2 halves of 5 games. No player is allowed to play more than once in each half apart from sudden death where 1 player can play 3 total games.

It is the away teams responsibility to make sure no player plays an opponent more than once and they should fill the team sheet in accordingly.

Any reserve players must sign the sheet on the match night.
